

## Roof Access

At the April 9, 2013 meeting of the Eagles Reserve Board of Directors, a motion by Dave Williams that nothing be placed on roofs (including Holiday decorations) and no person unless a licensed, insured professional may set foot on the roofs.

Second Melissa Leiner. Unanimous approval.

Note of Explanation: The board purchased a warranty on the roofs as they were installed. The warranty could be negated if access were not limited to specifically licensed and trained roofers certified on the GAF Materials Corporation (GAF) system.
