

Fences

At a monthly meeting of the Board of Directors held March 14, 2017 Judy Isaly made a motion regarding the fences behind Arabian Lane villas:

If existing wood fences are repaired, they may be repaired with wood. If the fences are *REPLACED*, they must be replaced with white PVC of similar height and design. The motion was seconded by Melissa Leiner, and passed unanimously.

Note: The fences behind the Villas on Arabian Lane were part of the original community design. Any changes must be approved by the board/Architectural Review Committee (ARC)
